SAUDI ARABIAN OIL COMPANY (Saudi Aramco)		G.I. Number 2.710	
GENERAL INSTRUCTION MANUAL		ISSUE DATE 03/15/2010	
ISSUING ORG. PROJECT MANAGEMENT		REPLACES 08/18/2009	
SUBJECT MECHANICAL COMPLETION AND PERFORMANCE ACCEPTANCE OF FACILITIES		APPROVAL MYM	PAGE NO. 1 of 33

TABLE OF CONTENTS

- OBJECTIVE
- SUMMARY
- DEFINITION OF TERMS
- COMPLETING AND TURNING OVER THE WORK
 - Acceptance of a Facility
 - Steps to Achieve Mechanical Completion
 - Steps for Performance Acceptance
 - Performance Acceptance Certificate
- FINANCIAL CLOSE-OUT OF PROJECT
- REFERENCE
 - Supplement 1 Example: Mechanical Completion Certificate (MCC)
 - Supplement 2 Example: Performance Acceptance Certificate (PAC)
 - Supplement 3 MCC & PAC WORK FLOW CHART
 - Supplement 4 FINANCIAL CLOSE-OUT FLOW CHART
 - Supplement 5 Division of Responsibilities for Turnover

1. OBJECTIVE:
G.I. 2.710 is intended to define the respective duties and obligations required of the Saudi Aramco Project Management Team (SAPMT) Construction Agency, Inspection Department, Loss Prevention Department, and the Proponent that are necessary to ensure a smooth and timely transition from the construction phase through the start-up and operation of a facility. The Mechanical Completion and Performance Acceptance Certificates document these duties and obligations.
* Reference to this Instruction and its attachments in a lump sum contract as a requirement for the contractor to follow and as a sole means of defining the contractor's pre- and post-MC responsibilities is not permitted. This Instruction and its attachments define responsibilities within Saudi Aramco organizations only and are not a suitable means of assigning responsibilities to the contractor. As applicable, a customized division of responsibility based on needs should be included or referenced in lump sum contract, either in the body of Schedule "B" or as an attachment to Schedule "B" titled Completing & Accepting the WORK.

Job _____ **Delta Limited™ - Type H**
Engineer _____ **Space Heating/Hot Water Boilers**
Contractor _____ **Model# 309B-899B**
Prepared by _____ Date _____
Model _____

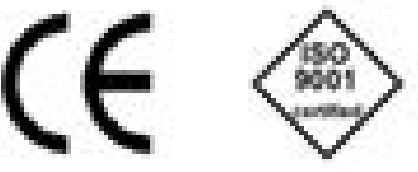

Part Number	Part Name	Part Description
1	Boiler	Space Heating/Hot Water Boiler
2	Boiler	Space Heating/Hot Water Boiler
3	Boiler	Space Heating/Hot Water Boiler
4	Boiler	Space Heating/Hot Water Boiler
5	Boiler	Space Heating/Hot Water Boiler
6	Boiler	Space Heating/Hot Water Boiler
7	Boiler	Space Heating/Hot Water Boiler
8	Boiler	Space Heating/Hot Water Boiler
9	Boiler	Space Heating/Hot Water Boiler
10	Boiler	Space Heating/Hot Water Boiler

Hazardous Area Terminal

The Low Power, High Performance Solution for Weighing in Hazardous Areas

Model	PUMA TERMINAL
Physical Dimensions W x D x H	254 x 183 x 146 mm 10.0 x 7.2 x 5.8 in
Operating Temperature	-10°C to 40°C (14°F to 104°F) 10 to 95% humidity, non-condensing
Power – 3 Choices	Internal 1.2 Amp hour battery External 7 Amp hour battery 115 or 230 Volt AC power supply
Environment Protection	NEMA 4X (IP65)
Mounting	Desk or Wall
W & M Approvals	NTEP Coc #96-160, Canada AM-5195, Australia S359
Safety Approval Factory Mutual Research	PUMA terminal with internal or external battery or external AC supply: NEC Class I & II, Division 1 & 2; Groups A,B,C,D,E,F, & G; T4A (AC supply must be located in safe area for groups A and B)
Safety Approval Canadian Standards Association	PUMA terminal with internal battery: CSA Class I & II, Division 1 & 2; Groups A,B,C,D,F, & G; T4A PUMA terminal with external battery or AC supply: CSA Class I & II; Division 1 & 2; Groups A,B,C,D,E,F, & G; T4A (AC supply must be located in safe area for groups A and B)
Display	Six-digit, seven-segment 25 mm (1 in), high resolution LCD LCD icons: Clock, ID, Battery Low, G, T, N, lb, kg, t, g
Serial Communications	Two optional, bi-directional, fiber optic ports
Scale Type	Four 350 ohm or six 450 ohm 2mV/V analog load cells, listed on METTLER TOLEDO approval print 122502R or 156305R.
Approved Bases, Floor Scales and Load Cells (current models)	GBx, WBx, HD, Centerline™, Flexmount™, Tension Mount, Ultramount™, Easy Clean, 2158, 2254, 2256, 2266, 2888, MG4500

The product was developed, produced and tested in a Matter Toled quality that has been audited and registered according to international (ISO 9001) quality standards.

HA7048.1E

- Options:**
- 1 or 2 fiber optic, bi-directional, serial communication ports.
 - Fiber optic cable.
 - Safe area fiber optic, bi-directional, serial converter (RS232 and 20mA ASCII).
 - Column mounting bracket.
 - A wide variety of peripheral devices (printers, setpoint controller, analog/BCD, displays).
 - Battery chargers for safe area operation.

Features	Benefits
Intrinsic Safe Design	Allows the placement of weight terminal in a hazardous area without the addition of costly barriers, purge boxes or NEMA 7/9 enclosures.
Harsh Environment Enclosure	Better sanitation and cleaning No exposed door fasteners
All Stainless Steel Construction	Resists corrosion; ideal for chemical/pharmaceutical applications
Keyboard Entry	Intuitive setup and calibration
High Visibility Display	Easy to read, even in low light conditions
Programmable "Sleep" Mode	Greatly extends battery life
Optional Long Life Battery or AC Power Supply	Allows matching the power source to the application
Fiber Optic Data Communications	Simplifies transmission of data up to 1000', eliminates costly barriers
Setpoints	Allows the control of filling and process applications
ID & Time/Date	Allows printing of a more complete weighing transaction
Selectable Filtering/Update Rate	Provides improved responsiveness and weight stability

Note: Refer to drawing 156305R for approved weighing understructures. Some are approved for Gas Groups (A-D) only and some are approved for both Gas and Dust Groups (A-D) & (E-G). All Heavy Capacity Understructures require a grounding kit. Contact your local authorized Mettler Toledo distributor or sales office for additional information.

Factory mutual approved guide pdf. What is factory mutual approval.

FM approved is a third-party product certification scheme managed by FM approvals for building products, electrical and fire protection equipment. Here is what FM approvals focus on: Objectively testing property loss prevention products and services and certifying those that meet stringent loss prevention standards, encouraging the development and use of FM approved products and services that improve and advance property loss prevention practices FM Approvals FM Approvals. Five steps to ensure the products you are testing meet quality guidelines: request for proposal request from manufacturer and manufacturer authorization review, test and first audit report, FM approved mark and listing follow-up audits Tags: Q&A on major products Karen D. Aware that, for an FM approved product, the product grade must be listed on the approval guide website (www.approvalguide.com) with precise description of the product. FM approvals use scientific research and testing to ensure that products conform to the highest standards for safety prevention and loss of property. His specialties include a wide range of topics in environmental response, security, emergency response, risk management, points and nims. Think of it as the good cleanliness seal of approval, only better. For example, our FM Aprovals product testing service tells you instantly whether an industrial or commercial product or service meets these high standards. How can you be sure that your facilities are built to last, or that the loss prevention products you have installed have been tested to verify their intended performance? Hamel CSP, CET, Wach, is a regulatory compliance professional, trainer and technical writer. Products that getTM approved the brand. By Approval µ Karen FM The independent test report of the international insurance carrier, Global FM. Karen A certified security professional (csp), environmental health certificate and safety training (CET), auditor of catwalk Holder (Wach), Authorized Osha Coach for General Industry, Community Emerging Response Team (Cert) Coach and Hazmat Technology. The product itself must have the brand approved by FM printed on it. She has more than 25 years of experience, helping EHS professionals finding solutions to meet EPA, OSHA and Dot regulations and has more than 200 articles published in a variety of EHS topics. For regulation or product information, we can be reached at 1-800-hogs (468-4647) or by email in sttechnical@newpig.com. If a product has an approved brand by FM, this means that it passed through the certification test process to verify its function as intended. We have established worldwide patterns for contractors, builders and manufacturers to join, so you know that they are serving the highest levels of security and resilience. See the following link for more information on the correct use of the FM-approved label: It serves in the County of Blair, PA LEPC. The rigorous certification process and audit applied by FM approvals provides confidence for the market to specify, use and approve products approved by FM. She conducts training and seminars at national and webinars conferences for various national organizations. organizations.
