The story is interesting, but I think it needed a lot more plot and character development. Art :: 9 Ah, but I do have to say, the artwork in this movie is outstanding! The backgrounds, lighting, climate, everything. And for you data analysts out there, have a breakdown by numbers: Story :: 7 It started out promising, but spiraled into something a bit boring and, at least for me, terribly predictable. You see a routine town setting, and then look up at the sky...a nebulous wonderland, full of stars, conveying the idea that there really is no boundary to where we can go. Yes. However, they were greatly lacking in personality development. I've seen it expressed many times before. Maybe this is because I thought it would be a lot more sad than it turned out to be. Maybe, though, it's the point of the movie. As was the message of Howl's Moving Castle, hearts can change, and people can too. The answer was simply that "We have to learn when and how to move on". Overall 7 Story 7 Animation 9 Sound 9 Character 6 Enjoyment 6 I'm...confused. I had the tissues ready, the feels shield up, the family relocated to another room so that I could peacefully watch this and take all the dialogue in. However, I don't think that message is unique to this movie only. I was spellbound by the gorgeous landscapes that were concocted, with the perfect touch of surrealism and fantasy at every part. Yes, that is sad, but the way it was expressed just didn't seem to impact me. At the end of the movie, I don't know anything about them except that they're star-crossed lovers who, unfortunately, can't be with each other. read more The first part will be my thoughts, written as I think of them, the second part an analysis with numbers for those who prefer it that way. I wanted so much to enjoy this movie. We can relate to the characters as they experience loss, heartbreak, falling in love for the first time. As was noted in an article that I read some time ago, if the characters in a work of art are relatively simple, we use them as blank canvases on which to paint our own emotions. It would have been much better if even half an hour was given to plot development. I can't give this category a 10, however, because the people were somewhat disconcerting amongst all this scenery. Why did this movie completely fail my expectations? I appreciate, though, how it was portrayed realistically throughout, with nothing cheesy or sugar-coated. I was hoping that I would have been able to think of more. Call me someone with a heart of ice, whatever you will. Until then, I'll continue pondering this movie, and why I, usually so quick to empathize with others and share emotions, was not moved by this piece. Seperti tahun-tahun berlalu, mereka terus menyusuri jalur Sendiri, jarak mereka perlahan-lahan tumbuh lebih luas dan kontak mereka dengan satu mulai memudar. Enjoyment :: 6 Like I said in the beginning of this review, I sat there the entire movie trying very hard to like it. meskipun pemisahan, Mereka terus tetap berhubungan melalui surat. Maybe it's because I'm a heartless robot who has never love before, you would say, but no, I've cried and felt emotional at even the smallest hints of feeling, and I've most definitely been in love, known what it's like to feel heartbreak, desolation, the chill when you know the person you love will never share your feelings. When the movie ended, I sat there and asked myself, "so what?". Oh, I am sitting here, after watching the movie, but it's not out of awe, it's out of bewilderment because despite all the reviews and recommendations from everyone that proclaim it the best movie ever, that the message of it is poignant and beautiful...I can't say that I fully agree. I also appreciated the realistic sound effects, reminiscent of the sounds in a Miyazaki movie. At times, I felt like I could relate to them. The story is well-thought out and I liked how it was broken up into three parts, but it moved very quickly, and at the end I found myself shocked that there wasn't something more. I think I would have appreciated a bit more character structuring, though. I'm a bit disappointed in myself, because it seems everyone else except for me was touched by this anime while I appear to be some stone-cold freak of nature. I didn't feel as though as much effort was put into drawing them, and they looked a bit odd at times. The background music could most certainly put me at ease in any situation. It's clear that a lot of effort was put into this movie. But for some reason...I couldn't relate to this movie, try as I might. Overall :: 7 The messages in 5 Centimeters per Second are beautiful. The most outstanding issue in 5 Centimeters per Second, for me, is that I don't feel that there was enough character development. If my opinions change, I will be back to write another review. Namun, mereka tetap mengingat satu sama lain dan The Times Mereka Apakah mereka akan Memiliki kesempatan untuk bertemu lagi?
